## **The Meister Series from Junghans – A Success Story.**

**Since the 1930s, the accolade of Meister has been synonymous with ultimate standards in quality, horological expertise and an unmistakable design.**

Meister is a mark of quality – and the new 18 carat gold Meister Chronoscope is a very special watch indeed. There are only 100 of these coveted collector's items anywhere in the world. The characteristic face of the watch is both elegant and dynamic: the bowl-shaped totalisers blend effortlessly into the dial, which in turn is protected by convex sapphire crystal with anti-reflection coating on both sides. Whilst it is not possible to halt the flow of time, it can be stopped for at least a moment with the stylish hands and the chronograph function. A glass case back provides a glimpse of the finely decorated movement. The alligator leather strap with 18 carat gold buckle ensures maximum wear comfort on your wrist, thus guaranteeing an exquisitely elegant showing every time. A limited edition Meister Chronoscope in 18 carat gold is therefore an extremely exclusive timepiece which exudes the expertise of Junghans in horology and design.
